Cybersecurity Visiting Student Research (CyberVSR) Program
Summer 2021

- Purpose:
  - Provide undergraduate and graduate students in US and internationally to
    - gain research experiences in the broad area of cybersecurity with RIT faculty and peers of complementary skillsets and experiences, and
    - immerse in an inclusive and culturally enriched and diverse environment for personal and professional development.
- Program:
  - 10-week: May 31 to August 6, 2021 (Virtual via Zoom)
    - Weekly research meetings with faculty mentor and other students.
    - Biweekly CyberVSR Seminar (guest speakers and student research discussions)
      - Moderated by Dr. Yang, Director of Global Outreach, GCI.
    - Biweekly TigerTea hour (cultural exchange and fun games)
      - Moderated by RIT Global staff.
    - Shortened participation are available upon request.
